

The Slowest Feeder In The World! Works Without Frustrating Your Pet

FeedMe was developed with more than three decades of research and experience in the field of Dog Behavioral Science.

It fulfils the dog's instinctive need to focus and be challenged. This feeder gives dogs an outlet for their desire to chew, think, and be mentally stimulated by their meals. This amazing device does so much more than just aid behavioural problems.

FeedMe occupies your pet for a long time, encourages them to be active, enriches their environment, and stimulates all of their senses: taste, touch, smell, sight, and hearing. Keeping them constantly rewarded without frustration, your pet will never get bored of this fun exercise.

Prevents Overeating and Obesity

Provides slow feeding for an average time of 55 minutes, naturally filling their bellies, stopping overeating food intake.

Prevents separation anxiety

Addresses Separation Anxiety by engaging your pet and helping her cope with feelings of loneliness when home alone.

Continuous Stimulation

Stimulates all your pet's senses- Sight, smell, hearing, taste and touch. Enriching your pet's quality of life & calming energetic pets.

Reduces Destruction of Property

Stimulates and rewards your pet's chewing actions. Reduce their desire to destroy your home while away.

Financial Savings

Redirect your pet's eating habits. With FeedMe your pet will only eat as much as needed. Saving you money.
